ACADEMIC PROJECTS

DESKTOP ASSISTANT

2022-2023

PYTHON LANGUAGE (DESKTOP APPLICATION)

This is commonly used in voice assistants like Alexa, Siri, etc. In Python there is an API called SpeechRecognition which allows us to convert speech into text. It was an interesting task to make my own assistant. It became easier to send emails without typing any word, Searching on Google without opening the browser, and performing many other daily tasks like playing music, opening your favorite IDE with the help of a single voice command.

JOB SEARCH

2022-2023

JAVA LANGUAGE (ANDROID APPLICATION)

A job search Android application is a mobile application that allows users to search for job opportunities directly from their Android devices. It provides a platform for job seekers to browse through various job listings, explore details about each job, and apply for positions that match their skills and interests.

COLLEGE WEBSITE

2021-2022

HTML, CSS AND JAVASCRIPT PYTHON LANGUAGE

This includes sections such as home page with news and announcements, an about us section highlighting the institution's history and mission, academic programs offered, admissions details, faculty and staff profiles, events calendar, and contact information.
